RESIDENTS INPUT NEEDED FOR COMMUNITY PROJECT!!!!

Residents of Franklin and Franklin Vicinity,

The City was recently awarded funding from the foundation to build a group of partners with whom can be worked with toward obtaining a multi-year grant to enhance healthy behaviors in the city. This group will be apart of building a citywide coalition of people and agencies who will come together around one idea: **Increasing the health of the residents of the Franklin vicinity.**

Because of its role to promote through both facilities and city-wide programs a variety of recreational and leisure type activities to enhance the physical, mental social and educational growth for residents of the Franklin community and surroundings areas in planning developing active, physical programs and active ties in the Franklin community, the Franklin Department of Parks & Recreation was chosen as the lead organization to advance this project.

The next step of the process requires the department receive input from the general public. Light Refreshments will be served.
